COLLECTION AGENTS ARRESTED

Charged With Using the Mails in Scheme to Defraud.

Fred L. Wendler and Barney E. Buckley, doing business as the Excelsior Collecting Company, with offices in the Chemical ing, were arrested yesterday by Post Office Inspectors Fulton and Sullivan on an indictment issued by the Federal Grand indictment issued by the Federal Grand Jury Saturday, charging them with using the mails in a scheme to defraud.

According to the information in the possession of the Government officials, the defendants solicited business from small merchants throughout Missouri, Illinois, Kansas and Iowa, offering to collect bad debts on condition that the merchants become members of the collection agency. A fee of 25 was asked as the price of a membership, in the form of a note for that amount. The defendants, it is alleged, agreed not to attempt to collect the amount of this note The defendants, it is alleged, agreed not to attempt to collect the amount of this note until they had turned in to the subscriber collections amounting to that sum. Instead of doing this, however, it is alleged that in many instances they turned the notes into the bank for immediate collection without attempting to collect any bad debts, as originally agreed upon. In some instances, it is alleged, the defendants sold these notes to one of their employes, who notified the makers of the notes that he had purchased them and would sue unless the note was paid. In several cases, it is alleged, suit was actually brought against subscribers of the notes. was actually brought against subscribers of the notes.

Wendler and Buckley were arraigned be-fore Judge Adams yesterday and pleaded not gullty. They were remanded to the custody in \$1,000 ball each, and the case set for January 6, 1903.

American Officials at Paris Incline to the Belief That Accident Theory Will Not Bear Close Investigation.

Paris, Nov. 24.-The Gore tragedy was resented in a dramatic aspect to-day when the French officials took de Rydzewski to the scene of the occurrence and compelle him to re-enact every detail of the affair, this being done under the practice of the French law, which requires the reconstruction of the tragedy in the presence of officlais under exactly the same conditions as it was originally enacted.

The chamber was arranged as on the night of the fatality, and the same weapon was placed in de Rydzewski's hand to act out his version.

De Rydzewski re-enacted the final scene, giving complete details as to the positions of Mrs. Gore and himself. He said that he was lying on the bed, fully dressed, while Mrs. Gore was seated at the foot of the bed, her legs hanging down on the side nearest the wall and her head thrown backward on the feather quilt, which had been rolled to form a cushion.

Wishing to take something from the night table, he said, he knocked off the revolver, which went off and the bullet struck Mrs. Gore in the face.

As the bullet was found buried in the hair of the victim, it is impossible to verify the direction taken by the missile otherwise than by the wound.

PRISONER SET FREE As a result of to-day examination the ex-amining magistrate has decided to set De Rydzewski at liberty provisionally. Before the party left the house M. Ber-tillon, the criminologist, who also is investi-gating the case on behalf of the police, arrived and took several photographs of the

rived and took several photographs of the room, after asking De Rydzewski to place everything in exactly the same position it occupied at the moment of the tragedy. It is reported that as he did this De Rydzewski evinced considerable emotion. He afterwards left in a cab, escorted by two policemen, who conducted him to the prison, where the preserve forwallities attending. where the necessary formalities attending his discharge from custody were completed. At the same time, the case has assumed an international aspect by the action of Consul General Gowdy, in following out the instructions of the State Department at Washington and appointing a commission composed of four American doctors residing in Paris to conduct an independent post-

ing in Paris to conduct an independent postmortem examination.

The questions before the American medical commission are delicate, for their conclusions as to the course of the builet may
conflict with those of the French medical
experts. The latter base the accident theory
on the upward range of the builet, but the
American officials believe that an independent autopsy will establish the fact that the
range was almost horizontal, thus indicating a direct shot from an almed weapon.

The United State Consulate Staff also
is taking depositions of witnesses independent of those taken by the French officials.
So far, this action has not developed any
new features, but the depositions furnish
a complete and unprejudiced history of the
case and will be forwarded to the State
Department at Washington.

Mr. Gowdy will be represented at the examination of de Rydzewski, in whose apartment Mrs. Gore was killed, but as an observer, as care will be taken not to create
an impression that there is the least official doubt of thoroughness of French justice.

The funeral of Mrs. Gore will take place
